Portfolio: orisi-srikanth.github.io/my-portfolio

CAREER OBJECTIVE

To obtain a Software Trainee position where I can use my technical skills and problem-solving ability to develop reliable applications and grow into a strong software professional.

SKILLS

Programming: Python, Java

Web Development: HTML, CSS, JavaScript, React, FastAPI

Database Technologies: MySQL, SQL

Data & Analytics: NumPy, Pandas, Matplotlib, Excel, Power BI

Tools & Platforms: Git, GitHub, VS Code, Render, GitHub Actions, CI/CD

Core Concepts: Object-Oriented Programming (OOP), Data Structures, Problem Solving, NLP, Machine Learning, Computer Networks, Operating Systems, Database Management System

PROJECTS

TicketMind AI

Python | FastAPI | NLP | React | GitHub Actions | Render | CI/CD

- Engineered an AI-driven support ticket system using Python, FastAPI, React, and NLP to automate ticket triage and workflow routing.
- Automated build and deployment workflows with GitHub Actions and Render, supporting dependable zero-downtime releases.

Live Demo: <https://orisi-srikanth.github.io/ticketmind-ai>

GitHub: <https://github.com/orisi-srikanth/ticketmind-ai>

Chatly AI Chatbot

Python | FastAPI | React | REST APIs | Render

- Built a conversational AI chatbot using React, FastAPI, and Python to generate context-aware responses in real time.
- Integrated REST APIs to connect frontend interactions with backend response generation and session handling.

Live Demo: <https://chatly-chatbot-4.onrender.com>

GitHub: <https://github.com/orisi-srikanth/Chatly-chatbot>

INTERNSHIP EXPERIENCE

AI & Prompt Engineering Intern

Vault of Codes | July 2024 – August 2024

- Engineered optimized prompts that improved AI model response accuracy by 20% through structured

input refinement and iterative output testing.

- Collaborated on real-world problem-solving tasks using Generative AI tools, reducing average task completion time by 30% through enhanced AI interaction workflows.

AWS Certified Cloud Practitioner

Aditya Institute of Technology and Management | April 2026 – May 2026

- AWS Certified Cloud Practitioner (CLF-C02) – Validated knowledge of cloud computing concepts, AWS services, security, pricing models, and architectural best practices.
- Demonstrated understanding of cloud deployment, monitoring, scalability, and cost optimization using AWS technologies.

EDUCATION

B. Tech in Computer Science (Data Science)

AITAM, Tekkali | CGPA: 8.3/10 | Expected Graduation: 2027

Intermediate (MPC)

Sri Chaitanya Junior College, Marikavalasa | 87.8% | 2023

ICSE (10th)

St Ann's Convent School, Pathapatnam | 82% | 2021

CERTIFICATIONS

- Introduction to Machine Learning – NPTEL ([Link](#))
- AWS Cloud Practitioner – AWS ([Link](#))
- Oracle Certified Foundations Associate ([Link](#))

ACHIEVEMENTS & ACTIVITIES

- **Participated in the AIGNITE Hackathon (AITAM)**, working collaboratively to develop and present an innovative software solution within a competitive, time-bound environment.
- **Completed a hands-on Web Development Workshop**, strengthening practical knowledge of frontend and backend development workflows and best practices.
- Pursuing Honors in Artificial Intelligence & Machine Learning (AI & ML) as part of the B.Tech curriculum.
